

dawsonera champions Information Science, Technology and Management!

This week dawsonera News is devoted to the important works of IGI Global and its five imprints - IGI Publishing, IRM Press, Information Science Publishing, CyberTech Publishing and Information Science Reference.

IGI Global (IGI) is an international publishing company specialising in high-quality research publications in the fields of information science, technology and management. Each IGI publication is aimed at aiding information science and technology professionals in keeping up with emerging innovations, technologies and managerial techniques, and IGI is widely acknowledged as producing some of the most current and relevant titles because its authors are some of the leading experts in their fields.

On dawsonera we have 600 titles from IGI Global and its five imprints. Here are just a few of these titles that are available:

IGI Global

- ▷ Encyclopedia of artificial intelligence
- ▷ Encyclopedia of human resources information systems : challenges in e-HRM
- ▷ Encyclopedia of information communication technology
- ▷ Exploration of space, technology, and spatiality : interdisciplinary perspectives
- ▷ Gender and information technology : moving beyond access to co-create global partnership
- ▷ Handbook of research on learning design and learning objects : issues, applications, and technologies
- ▷ Handbook of research on technoethics
- ▷ Handbook of research on text and Web mining technologies
- ▷ Information systems research methods, epistemology, and applications
- ▷ Information technology and societal development
- ▷ Interactive web-based virtual reality with Java 3D
- ▷ Managing Web service quality : measuring outcomes and effectiveness
- ▷ Social and human elements of information security : emerging trends and countermeasures
- ▷ Social networking communities and e-dating services : concepts and implications
- ▷ Strategic applications of distance learning technologies
- ▷ Encyclopedia of information science and technology
- ▷ Handbook of research on e-learning methodologies for language acquisition
- ▷ Handbook of research on distributed medical informatics and e-health

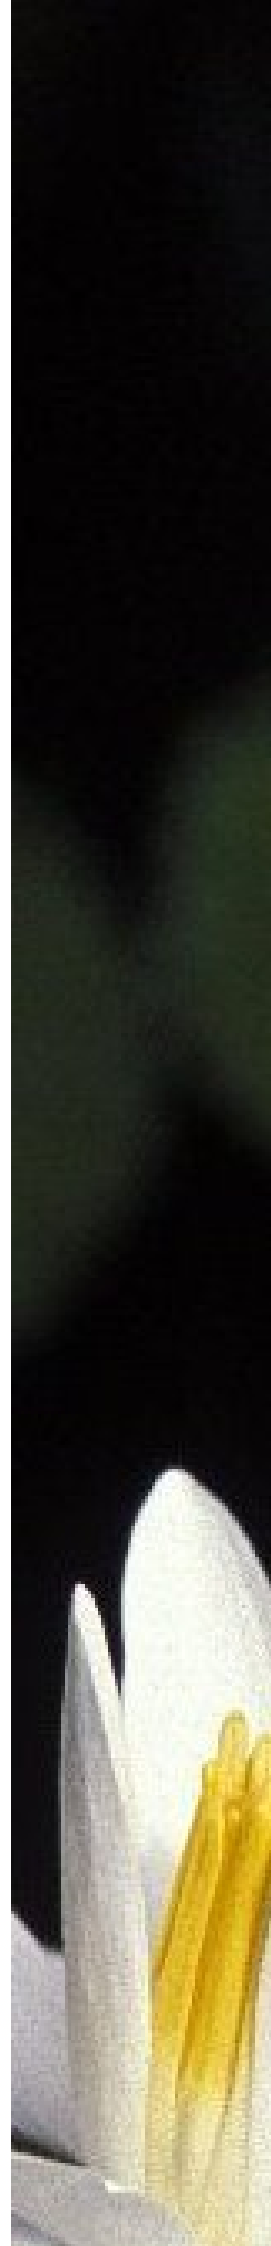

IGI Publishing

- ▷ Data mining and knowledge discovery technologies : Advances in Data Warehousing and Mining
- ▷ Intelligent complex adaptive systems
- ▷ Life cycle management in supply chains : identifying innovations through the case of the VCR
- ▷ Reality, universal ontology, and knowledge systems : toward the intelligent world
- ▷ Engineering service oriented systems : a model driven approach
- ▷ Advances in ubiquitous computing : future paradigms and directions
- ▷ Applications of complex adaptive systems
- ▷ Information systems engineering : from data analysis to process networks
- ▷ Knowledge management strategies : a handbook of applied technologies Knowledge and learning society books
- ▷ Multimedia information storage and retrieval : techniques and technologies
- ▷ Tacit knowledge in organizational learning
- ▷ Technology enhanced learning : best practices

IRM Press

- ▷ Computer security, privacy, and politics : current issues, challenges, and solutions
- ▷ Consumer adoption and usage of broadband
- ▷ Contemporary issues in ethics and information technology
- ▷ Data warehouses and OLAP : concepts, architectures and solutions
- ▷ Digital accounting : the effects of the Internet and ERP on accounting

See over for more titles and Imprints from IGI Global ▷

- ▷ Geographic information systems and public health : eliminating perinatal disparity
- ▷ Harnessing knowledge dynamics : principled organizational knowing & learning
- ▷ Integrated approach to web performance testing : a practitioner's guide
- ▷ Internet strategy : the road to web services solutions
- ▷ Managing successful IT outsourcing relationships
- ▷ Mobile and wireless systems beyond 3G : managing new business opportunities
- ▷ Modern software review : techniques and technologies
- ▷ Business processes : operational solutions for SAP implementation
- ▷ Advances in image and video segmentation
- ▷ Managing multimedia semantics
- ▷ Video data management and information retrieval
- ▷ Latin America online : cases, successes and pitfalls

Information Science Publishing

- ▷ Integrating information & communications technologies into the classroom
- ▷ Intellectual property rights in a networked world : theory and practice
- ▷ Intelligent learning infrastructure for knowledge intensive organizations : a semantic web perspective
- ▷ Internet-based workplace communications : industry & academic applications
- ▷ Learning objects for instruction : design and evaluation
- ▷ Making the transition to E-learning : strategies and issues
- ▷ Managing e-learning strategies : design, delivery, implementation and evaluation
- ▷ Online science learning : best practices and technologies
- ▷ Religion and technology in the 21st century : faith in the e-world
- ▷ Requirements engineering for sociotechnical systems
- ▷ Self, peer and group assessment in e-learning
- ▷ Technology and problem-based learning
- ▷ Technology literacy applications in learning environments
- ▷ The interaction society : practice, theories and supportive technologies
- ▷ User-centered design of online learning communities
- ▷ Visions of mind : architectures for cognition and affect
- ▷ Advances in computer-supported learning
- ▷ Advances in web-based education : personalized learning environments

CyberTech Publishing

- ▷ Modern technologies in Web services research
- ▷ Securing the information infrastructure
- ▷ Cryptography and security services : mechanisms and applications
- ▷ Advances in electronic business
- ▷ Current issues and trends in e-government research
- ▷ E-business innovation and process management
- ▷ Emerging e-collaboration concepts and applications
- ▷ Object-oriented Oracle
- ▷ Semantic Web-based information systems: state-of-the-art applications
- ▷ Utilizing and managing commerce and services online

Information Science Reference

- ▷ Information communication technologies for enhanced education and learning : advanced applications and developments
- ▷ Innovations in information systems modeling : methods and best practices
- ▷ Innovative technologies for information resources management : Advanced topics in information resources management
- ▷ Intellectual property protection for multimedia information technology
- ▷ Knowledge management and business strategies : theoretical frameworks and empirical research
- ▷ Knowledge networks : the social software perspective
- ▷ Multirate filtering for digital signal processing : MATLAB applications
- ▷ Networked communities : strategies for digital collaboration
- ▷ Securing Web services : practical usage of standards and specifications

Many more interesting and diverse subjects from over 200 Publishers can be found on *dawsonera*!
