

Title Matching

Don't miss out on easy title matching!

A member of the dawsonera team can provide the following title match reports:

Print v eBook Availability

Dawson compares your printed acquisitions against ebooks that are available on the platform. The team can track back up to the last 3 financial years.

The report lists the cost of the ebook and information such as print order numbers, fund codes number of copies ordered.

Supplied Collection

This report matches against a spreadsheet that you supply. This may be your 'Short Loan Collection' or a 'Subject Collection'.

The ISBN/eISBN must appear in one column with only one ISBN per field.

Dewey Report

Dawson can provide title reports on specific subject areas, or match against a Dewey classification or range.
