

Going Global with a Unique Range of eBooks

This week we would like to introduce you to our newest and most exotic acquisition to date - Global Media.

Global Media Publications, based in India, focuses on works of scholarship which touch upon issues of contemporary concern. Global Media is known in India for its commitment to quality and innovation and is an emerging leader in its chosen market, focusing largely on issues concerning South Asia.

Their books address a wide range of themes in religion, particularly Islam, history, society, politics, culture, education and the media. South Asian themes predominate, but do not exhaust the scope of these publications and aim to bring these issues to a wider audience.

Global Media is dedicated to supplying Indian publications to overseas customers – trade, libraries and individuals and sees working with Dawson as a step closer to their goal. They also locate, procure and supply publications on a wide variety of subjects from other Indian publishers located in different parts of the country.

In this role Global Media acts as a leading distributor for other Indian publishers, including ebooks, giving them a chance to reach a wider audience not otherwise possible.
