

More Historical Resources added to dawsonera

Osprey Publishing is the recognised leader in the production of high quality publications on military history from earliest times up to the present day.

Individual titles are devoted to specific battles or military strategy. Each book provides background on a conflict or campaign and sets them within their historical context. Colour artwork of the highest order accompanies the text and depicts armies, soldiers, weaponry and battlefields in astonishing detail.

Whether students are pursuing classical studies, researching medieval siege engines, or learning about the twentieth century conflicts of Vietnam and Israel, the immediacy of Osprey's presentation will bring history to life.
