

Seamlessly link to eBooks from your Library Catalogue, Blackboard or Moodle

Multiple entry points promote the discoverability of ebooks and libraries are already taking advantage of persistent URLs supplied by Dawson to link to the full text at title, chapter and page level from the library catalogue and other resources.

Dawson supplies enhanced MARC records to AACR level II. The 856 field contains the unique link at title level and is also available in the order confirmation and Admin portal. The MARC record and order confirmation are supplied within 24 hours of point of order, links are "OPAC ready" containing the authentication prefix, whether WAYFless URLs or Athens.

Once catalogued, library users can seamlessly link from the library catalogue direct to full text:

Moodle, Blackboard and Reading Lists

Links at title, chapter or page level can be copied from the Reader portal to aid academics when compiling reading lists, course packs or integrating content within VLEs such as Blackboard and MLEs such as Moodle to support teaching.

Students can choose to read ebooks online, or download for up to seven days on their laptop or memory stick. Users can print, copy and make permanent notes within ebooks creating an interactive learning experience.

Publishing Partners

Dawson has licensed 100,000 ebooks and coverage now extends to over 230 publishers.

Working in partnership with libraries and publishers, Dawson ensures that front list material relevant to the academic community is available to purchase on dawsonera at the time the printed book is published.

Contact Us

To arrange a 30 day free trial, live demonstration, suggest a publisher or to take advantage of our title matching service, please contact a member of the team by email enquiries@dawsonera.com or telephone +44 (0)1933 417500.
